## SUMMARY

---

I'm a Business Information Systems student who is passionate about helping designers and developers ship their very best work. I am currently an undergraduate studying at Binus International University. I'm a detailed-orientated, critical-thinking, and objective analytical individual. I'm also adaptive to various kinds of environments and am also a quick learner. I am eager to learn and encounter new experiences from different kinds of backgrounds or surroundings. I am also an individual who likes to multitask as it refreshes me and encourages me to be in a more productive manner.
